Conception & réalisation : Imprimerie ZIMMERMANN - 04 93 22 58 16 - Villeneuve-Loubet.
This commercial document has no contractual value. Every job with our products must be performed according to professional Rules and our descriptive - sheets.

COURTSOL PRODUCTS :
A COMPLETE RANGE OF SUPERIOR ACRYLIC COATINGS

COURTSOL WORLDCHAMP ROLLER

Three-coat system for new or existing roller skating surfaces such as roller skating tracks. This system combines two essential features : a high grip level and a very effective rolling surface. Courtsol Worldchamp Roller is especially recommended for Speedcompetition.

COURTSOL RACE TRAINING ROLLER

Four-coat system for new or existing roller skating surfaces such as roller skating tracks. This system combines two essential performances : an excellent grip and an optimal rolling surface with lower friction. Courtsol Race Training Roller is designed for all roller skating sport activities (Speed/artistic/ hockey/inline hockey) and is especially recommended for Speedtraining.

FONGIMUR

Curative and preventive decontaminating solution for a remedial treatment of surfaces biologically polluted by mosses or moulds.

COURTSOL PRIMER ES 40

ES 40 is a creamy copolymer primer used on properly prepared asphalt surfaces as a primer and bond coat prior to application of Courtsol acrylic textured compounds. ES 40 is also used to improve eroded or weathered porous surfaces.

COURTSOL PRIMER ES 15

Clear copolymer primer used as a bond and tack coat to renovate old synthetic coatings.

COURTSOL RESIBASE BP

Acrylic coating reinforced with coarse sand to patch and level new or old surfaces. Mixed with cement, this superior patching compound enables correction of deep depressions up to one centimeter, as well as minor irregularities of the surface.

COURTSOL RESIBASE

Acrylic emulsion with predispersed medium sized aggregates used for intermediate coats of Courtsol multicoat systems.

COURTSOL RESITOP

Acrylic emulsion with predispersed fine size mineral aggregates. Results in a fine texture surface for sure footing, sliding and reliable ball bounce.

Artistic, Hockey, Inline Hockey, Speed roller skating surfaces, Cycling tracks, Cycling paths
Acrylic Sport Surfaces
Anti-skid grounds

COURTSOL COLOR

Quality pigmented synthetic resin, with a wide range of colors. Imparts a very appreciated tough wearing colored finish. Anti reflective. To be applied in two coats over concrete or asphalt after application of primer.

COURTSOL LINES

Acrylic paint delivered ready to use to be applied on a single coat. Available in white and other playground marking colours.
